EDUCATION

Lovely Professional University Bachelor of Technology in Computer Science & Engineering (Data Science with ML) • CGPA: 8.22	Jul 2024 – Present
St. Paul Junior College, Nagpur Intermediate (HSC) • Percentage: 70.67%	May 2023 – Mar 2024
St. Peter's School, Bhandara Matriculation (SSC) • Percentage: 93.40%	Mar 2021 – May 2022

TECHNICAL SKILLS

Languages:	Python, C++, Java, SQL, JavaScript, HTML5, CSS3
AI/ML & Data:	Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Joblib, EDA, Predictive Modeling
Core Concepts:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems
Tools & Platforms:	Git, GitHub, Jupyter Notebook, MySQL Workbench, Tableau, MS Excel, VS Code

FEATURED PROJECTS

Hospital Patient Readmission Predictor Python , Scikit-Learn , Streamlit , Pandas , NumPy , Joblib - Built a clinical decision support system predicting 30-day diabetic patient readmissions using Random Forest classification. - Evaluated model using Accuracy, Precision, Recall, and F1-score; deployed interactive web UI via Streamlit.	GitHub ↗
Expense Tracker System C++17 , STL , Merge Sort , Object-Oriented Programming , File Handling - Engineered a console application with Merge Sort for multi-criteria expense sorting and Linear Search for category queries. - Implemented robust persistent file I/O for saving financial records with strict input validation.	GitHub ↗
Adaptive Resource Allocation in Multiprogramming Systems Python , psutil , PyQt6 , Multiprocessing , Dynamic Scheduling - Created a real-time OS simulation monitoring CPU and RAM usage across child processes with safety thresholds. - Designed a dynamic priority scheduling algorithm and desktop graphical dashboard powered by PyQt6.	GitHub ↗
Simple Password Strength Checker Java , OOP , Security Rules , String Traversal Analyzed password entropy and vulnerability patterns based on industry security rules with automated validation.	GitHub ↗

TRAINING & EXPERIENCE

Data Structures and Algorithms Training — Splen Technologies & Education Completed 45 days of intensive DSA training covering Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Hashing, Heaps, and Recursion; solved 75+ coding problems with complexity optimization.	Jun 2026 – Aug 2026
--	---------------------

CERTIFICATIONS

- Database Management System Part - 1 and 2** — Infosys (Jul 2026)
- Introduction to AI and ML** — Skillera (Apr 2025)
- Python with Libraries** — Skillera (Jan 2025)
- Exploring Python Libraries For Data Science** — UpGrad (Nov 2024)
